STAHELIN'S Plants are Guaranteed

STAHELINS plants are guaranteed to live and grow. We know that the stock which we offer to be the best, and we protect you by guaranteeing them to grow if given proper care and attention. We give you below, a letter which we received from one of our customers which shows the fine quality of our stock.

One customer living in Virginia has just written us a very pleasing letter stating he had grown some very fine berries from plants he received from us; that he had taken the prize at the Farmers display and taken such a fine photoraphg of the patch that a solicitor for another plant firm had offered him \$20.00 for the picture, but he said he thought he wanted to fool people by making them think they were grown from plants he was selling and he would not take the money. As they were grown from our plants, the picture belongs to us and we will show it to you in our next years catalog.

This letter means you can make money, many ways, from our plants. Fancy fruit prizes, money from photos, and other sources. They grow just as well in the north as in the south; a general favorite wherever known.
